Impact Statement

The impact of Aslan Ministries continues to be felt in all areas touched by the activities. Much is verified anecdotally, with affirmations of personal and church “blessing” being reported, impact on peoples lives with respect to Christian encouragement, a sense of purpose being imparted and guidance being received concerning leadership vision and direction. Impact is also felt coming from the challenge to engage in world mission. Often, it’s the most displaced, ignored or neglected express appreciation for the time, effort and focus on their needs in each respective field of service, at home and abroad.
